

.NET Developer opportunity is available at an exciting and growing company!

Snapfinger, Inc. – Alpharetta, GA 30005

Snapfinger Inc., the leading provider of integrated remote ordering and pre-payment solutions for the restaurant industry. We are pushing the limits of restaurant technology with our industry-leading online ordering platform. Our team of technology aficionados is looking for another member who is interested in a fast-paced environment where you can develop innovative software. This position is for someone wanting to define new solutions that will continue to change online ordering for restaurants.

What you'll be doing

You'll be working for an exciting, innovative, and fast growing company in the Atlanta area. As a .NET Developer on our team you will contribute to the design/development/implementation of innovative applications for the restaurant industry. In addition, you will,

- Design, develop and implement mission critical applications using .NET Framework and SQL technologies.
- Write server-side code for web-based applications, create robust high-volume production applications, and develop prototypes quickly.
- Work closely with our lead architect and software engineers.
- Use your exposure to complete product life cycle, including formal training or experience in Software revision control, and test methodologies to help us achieve our business objectives.
- Be responsible for iteratively and incrementally improving both products and processes.
- Communicate effectively verbally and through written documentation to present findings and recommendations to local and off shored team members.

What you need to qualify

- 2-5 years hands-on technical experience in .NET platform.
- Must have good SQL server design and optimization skills.
- Must have a good understanding of design patterns.
- Must be able to convert requirements to design documents.
- Solid experience with enterprise web application development.
- Solid experience with C#, ASP.NET, and WCF.
- Extensive experience with formal software development methodologies and processes required.
- Experience in MVC, ORM tools, SOA is desired.
- Experience in MS SQL is desired.
- Extensive knowledge of Ajax, web services, REST, JQuery and JSON.
- Extensive experience with unit testing and continuous integration.
- Ability to multi-task and manage multiple assignments in a fast-paced environment.
- Agile/SCRUM Software Development Process experience is a plus.

What we offer

- Collaborative, close-knit environment in Atlanta, GA.
- Working with a really smart and fun group of people on solving problems for an emerging industry.
- Competitive salary based on talent and experience.
- Flexible hours and relaxed dress code.
- In addition to vacation and sick days, you get your birthday off.
- \$50 food allowance each month.
- 401k, Medical, Dental and other benefits are available.
- Work on a platform that supports tens of thousands of restaurants in multiple countries!

If you're an experienced .NET Developer and have a desire to work for a rapidly growing business with significant opportunities for professional growth, apply today!

We are an Equal Opportunity Employer. Applicants are considered for all positions without regard to race, color, religion, sex, national origin, age, disability, marital or veteran status.
